Make These Choices and you'll be HOT WATER HAPPY shower after shower after shower!

1 Choose a Gas Water Heater!
 Gas heats water three times faster... easily keeps ahead of the demands of automatic washing machines, dish washers and growing families. Gas costs less, too.

2 Choose Right Size!
 Your plumber's approved sizing chart shows the proper size automatic gas water heater for your family. Don't buy an inadequate heater. It overworks—won't last as long nor serve you as well as the right size heater.

3 Choose Quality!
 One good way to select a quality gas water heater that won't just last but make sure it carries the Verified Long Life Seal shown here—or insist on a 10-year warranty when you order.

It's easy to buy a new automatic gas water heater. You can give your plumber all the details he needs over the telephone. You may even arrange convenient terms, credit and financing with him over the telephone.
